

REMARKS

The present invention provides materials and methods for using a synthetic peptide with neuroprotective/immunomodulatory properties in the treatment of brain damage, neurodegenerative disorders and inflammatory disorders.

Claims 4-21, and 23-24 have previously been cancelled. Claims 1-3 and 22 are pending in the present application.

Sequence Listing

Applicant provides as a separate part of the amendment on paper copy a "Sequence Listing" as required by 37 C.F.R. § 1.821(c). In addition, Applicant submits herewith a computer readable form (CRF) copy of the "Sequence Listing" as required by 37 C.F.R. § 1.821(e). Applicant has amended the specification herein, as set forth in detail above, directing its entry in the specification. Applicant also submits Statement to support filing and submission in accordance with 37 C.F.R. § 1.821 through 1.825. Accordingly, the Applicant respectfully submits that the specification is now in compliance with 37 C.F.R. § 1.821 through 1.825.

Summary

Applicant provides a "Sequence Listing," a computer readable form (CRF) copy of the "Sequence Listing" and has amended the specification herein, as set forth in detail above. No new matter is added by way of these amendments. Accordingly, the Applicant respectfully submits that the specification is now in compliance with 37 C.F.R. § 1.821 through 1.825.

Respectfully submitted,
TIMOTHY J. CUNNINGHAM, ET AL.
